Who is Avesis Incorporated

For the past 30 years Avesis has developed, administered and refined vision care solutions for the commercial market. Today we cover over 3.6 million members in all 50 states. We work with thousands of registered brokers and 25,000 carefully selected, screened and credentialed providers. We are a company that you can rely on.

What to expect in your Avesis eye exam

The best eye doctors provide the best care. You'll get comprehensive care with an eye exam from an Avesis doctor. Vision examinations analyze visual functions and can even detect other health care problems before the condition becomes serious.

Where you can find Avesis providers

Avesis currently has a network of over 25,000 carefully selected, screened and credentialed providers. Our network is designed to give members a vast selection of choices to use their vision care benefits. Currently 68% of the Avesis provider network is comprised of independent Optometrists and Ophthalmologists. 32% of the network are retail chains, offering convenient weekend and evening hours.

Why is vision care so important

Avesis makes sure that maintaining healthy vision for you and your entire family is a priority. As a member of a vision program, you will be able to take advantage of a benefit that will help you protect one of your most precious gifts – your gift of sight.

How to use the Avesis vision plan

You can start using your Avesis vision benefit by locating a provider on our website at www.avesis.com/maricopa or contacting Customer Service at 1-888-211-4012. Once you locate a provider in your area, make an appointment. Upon arriving, present proof of insurance and pay any co-pays or charges for non-covered items. If you have additional questions about your Avesis coverage, please contact Customer Service at 1-888-211-4012.
