

TREATMENT COST ESTIMATOR

Estimate and plan your
dental care costs.

You can estimate and plan for your dental care costs using *the treatment cost estimator* on **myCigna.com**. This user-friendly, web-based tool allows you to get dental estimates based on your specific plan design and geographic location.

This tool is flexible, enabling you to get estimates at a procedure or treatment level. A treatment level estimate is usually more accurate because it represents a group of procedures used to treat or resolve a specific dental condition or disease. This gives you a better understanding of what you may pay when you visit the dentist.

Benefits and features*

With the treatment cost estimator tool, you can:

- **Estimate** the approximate cost of treatment prior to the actual treatment.
- **Compare** the financial impact if you visit an in-network vs. an out-of-network dentist.
- **Understand** how much money you are saving as a result of your plan membership.
- **Search** by key words, procedure codes, treatments, dental categories and much more.
- **Access** the dental glossary where you can find descriptions of key dental terms.
- **View** (DPPO and Dental Indemnity) your specific plan information such as annual maximums, annual deductibles and much more.
- **View** (DHMO) your specific plan information such as patient charge schedule, age and frequency limitations and much more.

Our treatment cost estimator tool makes it easier and more convenient for you and your family to learn about your oral health, dental benefits and the costs associated with receiving dental care.

Offered by: Cigna Health and Life Insurance Company, Connecticut General Life Insurance Company or their affiliates.

*The availability of certain features may vary depending on your plan.

The Treatment Cost Estimator is for informational purposes and provides rough calculations only, based on the treatment or procedure you choose. It does NOT guarantee the exact amount of your out-of-pocket costs and it does NOT guarantee coverage for any treatment or procedure or any dental benefit plan payment. Your actual out-of-pocket cost for dental care will depend on the specific terms of your dental benefit plan.

The term "DHMO" is used to refer to product designs that may differ by state of residence of enrollee, including but not limited to, prepaid plans, managed care plans, and plans with open access features.
