Re: Super Bowl 2015

Environmental Services is already 'In the Game' for Super Bowl XLIX

We're ready to help you get your business' game plan in place to score high!

Super Bowl 2015 will bring an estimated one million visitors to Maricopa County. This would potentially increase the population of the County by 25% for an estimated week-long period.

Food establishments, hotels, water supplies, waste water disposal, waste collection, and public/semi-public swimming pools will all be affected by this influx of visitors.

Are you prepared?

Maricopa County Environmental Services Department (MCESD) has made available a Super Bowl Web page (maricopa.gov/EnvSvc/Home/Superbowl.aspx) for you as a business owner/operator to learn about some of the services and information that MCESD can assist you with to get your 'unit' ready to score high!

Find the Super Bowl 2015 tab on the MCESD Home Page Content Bar (esd.maricopa.gov).

For additional information, visit the Web site or call (602) 506-6611.
